

Support fleet management benefiting from NSS services

You can benefit from all NSS services with our fleet management offer. You choose the way you finance your cars and we take care of their management, going through all analysis to optimise costs.

Get all the advantages of NSS services for your fleet. Fleet management offers you the complete range of services you can find in full service leasing, the difference being that you finance your vehicle or already own it.

Your contract includes:

- A number of services (maintenance, assistance...)
- Support in the daily management of your fleet
- You can choose between a monthly fixed cost or an actual cost billing and an administration fee

You already own the vehicles or you finance them.

Your advantages:

- You benefit from our negotiated rates with car dealers and services providers related to your fleet.
- You can use NSS resales services to sell your cars.

Fuel management:

“Fuel Management” consists in management of all the services related to fuel acquisition, additional services and/or products selected by the Customer from the gas stations of the NSS suppliers. There are two fuel supply modalities: the fuel cards and the Fill&Go system. All the services related to fuel management are included in “Fuel Management”, except the cost of the Customer’s fuel consumption that is paid by NSS and integrally rebilled to the Customer according to the conditions mentioned in the Master Rental Agreement.
